

Adaptations Framework

Case Study: Endeavour Housing Association – Bathrooms

Endeavour Housing Association has appointed Coast & Country as their selected partner for the supply and install of bathroom adaptations for the next 4 years through the Northern Housing Consortium's bathroom adaptations framework.

Coast & Country are one of 13 Approved Partners to the NHC's bathroom adaptations framework and this marks their first contract award through the supply and install route of the framework. Both Coast & Country and Endeavour Housing Association are based in the Teeside area and this contract marks a new partnership between the two RSLs.

Through utilising the framework, Endeavour have been able to eliminate 14 days out of their process by not having to obtain quotations any longer, as well as making a saving of £600 on the supply and installation of a level access showering facility.

"Endeavour Housing Association has been able to save a considerable amount of time and money using the NHC's framework to appoint a partner for the supply and install of bathroom adaptations. We are excited to be working with Coast & Country and are confident that our tenants will see an improved adaptations service delivered by our new partner over the coming years."

John Findlay, Asset Management Co-ordinator, Endeavour Housing Association

"We are delighted to have been appointed to and awarded this contract through the Northern Housing Consortium's bathroom adaptations framework. Our aim is to build strong working relationships with our new customers by providing a quality product and service and we look forward to working with Endeavour Housing throughout the contract period and beyond."

Ian Tennant, Resource Planning Manager, Coast & Country

"It is great to see these two local RSL's working together through the NHC's Adaptations framework. Endeavour Housing Association and their tenants will see real benefits from this partnership as Coast & Country will be delivering a cost-effective, high-quality aids and adaptations service made possible by the NHC's agreements."

Andrew Carlin, Commercial Director, Consortium Procurement
